Hudson Montessori School

Discovering My World
 making memories as we create!

A unique, fun camp for Toddler and Bridge

We envision a school campus that unites every facet of our STEAM program. This necessitates a commitment to teacher training and curriculum that is integrated across subjects and grades. This will ensure direct, collaborative learning and an ever-growing curriculum that keeps pace with new technologies, processes, and ideas, so that as children grow and develop they are ready to engage with the demands of society.

Our Summer Camp is open to children 2 and 2 1/2 years old.

The Hudson Montessori Summer Camp will be a time of discovery and fun for your little ones. We will engage your child in many hands-on activities and exploration. In the beginning of our summer, our children will dive deep into the mysteries of the sea and discover its creatures. They will identify how water makes up most of our world and compare it with land. The second session will introduce them to the various types of transportation we use today. They will end their summer program by learning all about their body.

Math, Language, Sensorial and Practical life work will be routinely incorporated into the daily activities and the children will get an introduction to Montessori materials in the classroom. A good part of each day will be spent outdoors, engaged in creative activities and sports. Gymnastic lessons, music and movement, cooking, yoga, Spanish, water play and various exercises around our school campus will make this a memorable and exciting summer for your child.

Each of our campers enjoy outside play, snack time, circle/activity time specials, gardening and more.

Weather permitting, there is water play each day.

Specials Include:

- Music and Movement
- Cooking
- Yoga and Spanish

HOURS:

- 8:45 am-12:00pm (Half Day)
- 8:45am-3:00pm (Full Day)
- 8:45am-6:00pm (Extended Day)

Extended	Daily	Weekly	
	\$62	\$230	

Early Drop-off Fee per Session Session 1 & 2 \$100
 Session 3 \$65

Session I (June 24 - July 12)

Under The Sea

Children will engage in deep ocean discovery! They will dive into the uncharted territories of the deep sea and identify the many sea creatures that live in the ocean. An introduction to geography will be developed as they learn three fourths of the world is made up of water. They will splish-splash in our outdoor water play and create their own beach in their classroom.

No camp on July 4, 2024

Session II (July 15 - August 2)

Zoom, Zoom, Away We Go!

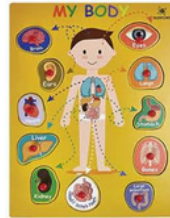

Trains, planes and automobiles. Don't forget boats, bikes and our feet! Children will learn about the different types of transportation people use on land, in air, and by sea. They will discover various modes of transportation that they can find in their own neighborhood and around the world. How do people travel? How do animals travel? So much to learn!

Session III: (August 5 - August 16)

My Amazing Body

In the third session of summer camp, children will see that our bodies are amazing. We need them for life and to do so many things. We use our senses to explore our world. Our bodies are like machines, helping us get and do what we need them to. Children will create various arts and crafts and enjoy activities using their amazing bodies!
