“GAMES PEOPLE PLAY”

SESSION 1: GAME OF STEAM

Do you have what it takes to succeed physically and mentally in the Game of STEAM? Campers will tackle challenges that blend science, technology, engineering, art, and math as they design, build, and code their way through inventive games of their own creation.

SESSION 2: TEAM SPIRIT

Get ready to experience the power of teamwork! In this session, campers play and create games that rely on collaboration, communication, and trust—discovering how games bring people together across cultures and communities.

SESSION 3: GAMES PEOPLE PLAY

From backyards and playgrounds to living rooms and dining tables, campers explore games enjoyed across countries and generations. They'll learn why these games endure—and redesign them for today's gamers.

**GET INSPIRED WITH OUR
